## Solid Hardwood Flooring

Solid wood flooring is a timeless choice, offering unmatched beauty, durability, and warmth.

Made from a single piece of natural wood, it boasts exceptional strength and can be sanded and refinished multiple times, ensuring decades of use.

KAARA solid wood flooring is crafted in 18mm thickness and comes in a variety of wood species like oak, teak and walnut, with various colors and finishes to suit any style. Beyond aesthetics, it provides natural insulation, noise reduction, and eco-friendly sustainability.

## Bamboo Flooring

Strandwoven bamboo flooring is a highly durable and eco-friendly alternative to traditional flooring. It's harder than most hardwoods, moisture-resistant, and ideal for high-traffic areas. Made from compressed bamboo fibers, it offers long-lasting performance, stylish designs, and sustainability, as bamboo regenerates quickly compared to hardwood trees. Affordable and low-maintenance, it's an excellent choice for both homes and commercial spaces.
